

THE MUSTARD SEED

Lord of the harvest, send forth laborers!

FEBRUARY 2017

You Can **PRAY**

- **Praise - Great results from our multiple events!**
- **Praise - UNFINISHED 2017 was well attended!**
- **Praise - Multiple applications for summer internships underway**
- **Pray for good follow up on the many new people we've contacted**
- **Pray for a return to full health - for Megan and Karen**

Mobilization Efforts

World Team mobilization personnel participated in P2C+ (a Power2Change event), MissionFest Vancouver and MissionFest Manitoba in the past weeks. Beyond that, Heidi and Paul were at the Heritage Seminary "Mish Conf" event - providing opportunities for students to explore missions through Summer Internships.

These activities have netted over 200 new contacts, and have seen several short-term applications come in. Just this morning I sent out another 5 application forms, along with reference forms for those who have already applied. The activities of these past weeks will drive activities in the next weeks - vetting applications, coaching, and training!

UNFINISHED 2017

Heidi Goud, World Team mobilizer, poured hours and energy into planning, promoting and setting up a World Team Missions Exposure Weekend - UNFINISHED 2017. Her efforts were not in vain!

33 people attended the entire conference, while an additional 10 people participated in portions of the event. Guest Speaker John Span unpacked insights on reaching our Muslim neighbours for Christ. World Team missionary Marcel Koojimans (Papua Indonesia) spoke to the need to serve as humble servants. East Asia co-workers shared their heart for the Uyghur people, and the wider vision to see minority groups in China reached with the Gospel. The collaboration of our field workers was such a blessing!

I had the privilege of speaking to the challenges and relevant approaches to reaching our people steeped in a secular mind-set, both here in Canada and in Europe.

Family Update

We've had a few health related items in our family lately...

- Megan had 4 impacted wisdom teeth removed last week - recuperation seems to be going well (PTL!)
- Karen came down with what appears to be strep throat this weekend - she's back to work today (it appears the antibiotics work well!)
