

How?

The Spanish Board of Education offers scholarships to work in Spanish public schools as an English language and culture assistant.

Who?

An adventurous spirit with a bachelor's degree and a medium level of Spanish.

Why?

Spain is a Catholic nation, where Catholicism has become only an ethnic identity. Less than ¼ of one percent of Spaniards are believing Christians. There is a great need to share the gospel. Working in the public schools is a great opportunity to build relationships with the Spanish people.

Where?

Placements are distributed throughout each region of Spain.

When?

APPLY NOW for the 2015-2016 school year.

Interested in joining the program and partnering with **World Team?**

Teach, GROW, and serve in Spain with World Team!

Help teach English in Spain for the 2015-2016 school year!

Live in Spain and learn about the language and culture, while expanding the kingdom of God in this nation!

Awesome opportunities!

TEACH

Do you like children and youth? Do you enjoy exploring new cultures? The Spanish government has provided a unique program bringing in over 2,000 native English speakers to assist teachers in the public schools all across the country. Don't have a teaching degree? That's OK! You only need to bring your English.

The teacher assistant position involves only 15 hours/week and provides you with an entry visa to live and work in Spain, as well as a minimal salary of 700€ per month.

GROW

Teaching 15 hours a week allows for a lot of free time. Why not combine your teaching experience with a missionary experience with World Team? Not only will you grow in language acquisition and a deeper understanding of Spanish culture, but also in your walk with the Lord.

Experienced World Team missionaries will mentor you and provide opportunities to worship and participate with a local Spanish church. This combination of sharing your language and culture and being spiritually encouraged makes for a unique opportunity to expand your resumé and maximize your time abroad.

SERVE

In Spain there are huge spiritual needs. Thousands of young people have given up on God and the organized church. In your mentoring relationship with World Team missionaries, you will explore ways to discover your gifts and use them for the glory of God! Relationships are the primary means for effective evangelism in Spain. Get to know and love the Spanish people, serve families by serving the children in school, and invest time with the youth, modeling who Christ is among them.
